

SpendLeak

Sample Report

Sample data only. Fake vendors and fake spend.

Executive Summary

Leak Score: 74 / 100

Potential Annual Savings: EUR 41,280

Top Findings

Duplicate vendors: Google Workspace appears across Operations and Sales.

Subscription waste: Notion, Confluence, Slack, Zoom, and Jira keep recurring.

Renewal risk: 1Password annual renewal is included as sample data.

Spend spike: AWS and Datadog grow sharply across the sample period.

Recommended Actions

1. Review duplicate subscriptions across teams and cards.
2. Renegotiate recurring monthly tools before the next renewal.
3. Validate the AWS and Datadog growth drivers.
4. Remove tools that overlap across departments.
5. Export the real report once a finance-approved CSV is uploaded.
